Adult Day Services Programs

Adult Day Services Programs offer caregivers a break from caregiving roles. The kind of care they provide varies, as do the days and hours of operation. Recreation and social programs are included. Other services offered *may* include personal care, general medical care, meals, transportation, caregiver support groups, and more. Prospective participants & caregivers are usually welcome to observe the program before making a decision about attending. Some programs have contracts with Medicaid, Oregon Project Independence, or some private insurance carriers. Call the individual programs for rates and further information. Those programs marked with a '♦' serve only those with memory impairment.
